

I am writing today to express my appreciation of KLOVE radio being broadcast on local radio. I listen to KLOVE every day as it provides Christian music without a lot of talk which is not available on other stations. Having new LPFM broadcasts take precedence over what is already in place is unfair to those who have established a market and are serving the community. Having a clean and positive alternative music source on my radio is of utmost importance to me and my family. Thank you for the opportunity to share my concerns.

Respectfully,

Jayne L Burdick
